Comments Please also see emails via Denise Buckingham.
EXACT - Black Velcro all 4 sides of both panels
Panel 1 = 239.4" x 53"
Panel 2 = 91.5" x 53"
In Denise's email she says I only need 2 fiberglass rods however on the web it says you need 1 for each side therefore I have increased it to 4 fiberglass rods in case it was a calculation error. Thank you. Kind regards, Lyn

Comments Have donated the curtains that didn't fit to the Civil Air Patrol unit of Asheville.
So will need to purchase more tracking to give as well. Curtains will work as
screening to small hanger style door for Cadets meeting room! Thanks for your
help.

Comments Just thought you might be interested to know I'll be using the raw mesh to build a bug-free enclosure for the king-size bed in our remote cabin in Canada. My wife is particularly sensitive to no-see-um bites, so she's looking forward to sleeping in a no-see-um-free zone!

Comments wonderful product AND service. Last weeks order had one spliced elastic cord which popped apart immediately, please replace w this magnet order.
Thanks
P.S., Estimating today for a new referral, may need Reseller info!

Comments If possible, I'd like to have Velcro on the long end of the role (female on one
end and male on the other), so that it can be turned into a 8' long tube.
If possible, please call so I can approve the additional charge. Thanks!

Comments I am using this net in front of my double garage door. I'm purchasing one panel 100'' in Height and 14ft in Width. I'm planning on creating a roll up curtain with a string/rope pully system. I am requesting that the double stitches run along all sides. Especially the left and right sides (along the height) of the role up curtain?

Comments The measurements are the exact opening dimensions, so if overlap is needed, I did not figure that into the order.
This is a 2nd story balcony so the floor can not have anything screwed or stuck to it (living space is below this space).
I was planning on mounting this outside the railing which is 36 inches high.
I think it makes sense to use Velcro to attach the sides to the vinyl siding - Are the fiberglass rods still needed? (I want the installation to look nice)
I was thinking that I do not need snaps at the bottom corners if there is Velcro down the sides. am I thinking correctly?
I'm best reached via email -

Comments Please send email when you ship -- delivery is to weekend home -- if possible
to ship so that the screens can be left without signature, that is best. If
signature is req'd, we'll need to try to have someone at house to accept delivery.
Thanks, Kent

Comments This is panel that needs to fit inside of a door frame that measures 31"W x 81"H. Because the panel needs to overlap slightly on the sides and bottom, I was instructed to order it slightly larger.
The panel should be approximately 35"W X 83H". This is what I was told would be a good size for this frame, given the need for a bit of overlap.
Please adjust size if you need to. I'll trust your judgement.

Comments YES Both panels 44" tall
 I am using panels to enclose tailgate of pickup truck!
 So i request velcro attachment on ALL edges of both
 panels but i also ordered marine snaps in case i want to do something else....
 Thanks

Comments I want the panel to the left to have side velcro. When inside and facing the panel it is to the left , from floor up and across...from left to right with velcro I have managed 44 units for 16 years. I am anxious to see how this works on my balcony . There will be others that follow...if all works out. I have previously made a home made screen for this area. I have researched your site and feel this should work best. I am set up high and 3 short blocks from ocean. Great breeze. Thanks for creating a great, easy, strong, workable solution. San Diego could use a site here. I will later send photos. This is a 6ft. by 10ft. balcony. Have indoor outdoor zebra carpeting. It will be great to back to having the sliding screen door off, door open (It is San Diego) and have this outdoor area an extension of my living area.
Thank you, Diane

Comments We have panels we ordered previously an are going to hand them on tracks.
Doo the snap carriers include the snap that goes on the panels? If not, We'll
need an equal number of snaps to insert on our panels. Thank you

Comments Can you email me letting me know the possibilities for expedited shipping? I don't know if it would actually be in our budget, but my father is coming next weekend to see our new house for the first time and I'd love to be able to spend time out on the porch by then! Thanks much.

Comments I'm attaching the bottom of the two panels I'm ordered to a stone tile floor.
Would it be better to use marine snaps screwed into the grout between the tiles
(similar to the masonry details included on your site) or to use extra strength
magnets imbedded into the grout? How have others handled this situation?
Should I include a fiberglass rod in the bottom of each panel if I use the extra
strength magnets for attachment?
I love your website, by the way.

Comments don't need tracking. have that and rods. needed snaps,end caps splices,
carriers,magnets. as you can see in my order. thanks for the good service. i
enclosed my porch with your curtins and it came out great. this order is for my
garage. we dine out on our porch almost every night, NO flies,NO
mosquiots,NO moths, Thanks to YOU.

Comments Panel will sit very close to edge of the raised porch floor. Should we increase the height so it falls on the outside and below the level of the floor? Thanks!
Jackie

Comments My fiberglass rods need only be 80" (6'7") long as opposed 10 feet. If its easier to ship 2 * 80" rods, than go ahead and make the cut for me.
Thanks

Comments REALLY well put together web site. LOTS of information, all very
informative. Only thing I didn't see was whether the 12" radius on your track
was inside, outside or centerline, hehe. Looking forward to getting the curtains.
Shawn

Comments Please, see our e-mails. Send your new standard track snap carriers. I would also like the appropriate number of the old style eye carriers and hooks. I will try to find the male snap portion, that I can place as I think the basement curtains will hang best with them. Charge me accordingly. Thank you.

Comments I ordered the heavy wet curtain, but ordered standard tracking because my
curtain height is on 9'6", Will this be ok?
Also, I prefer some one to sign for the delivery rather than leave them on i.e. "
the carport".

Comments I do not need the tool for snaps and Kurt said he would send two sets of snaps
 for the price of one.
 Thanks,
 Paul Turner

Comments The panels for these doors and Windows are not found in your measurements order page:
Therefore the exact measurements are as follows.
ALL DOORWAYS ARE 92 INCHES HIGH!
Doorway 1: Panel 1 and 2 measurements are 3 feet 1 inch wide to allow an overlap of the panels in the middle of the doorway for closing with block magnets.
Doorway 2: Panel 1 and 2 of this doorway are 4 feet 7 inches wide to allow an overlap of the panels in the middle of the doorway for closing with block magnets.
Doorway 3: Panel 1 and 2 of this doorway are 2 feet 8 1/2 wide to allow an overlap of the panels in the middle of the doorway for closing with block magnets.

Window 1 (Over the sink): 18 1/2 inches wide by 3 feet 11 1/2 inches high.
Window 2 (By Doorway 3): 20 inches wide by 4 feet 7 inches high.
PLEASE CHECK THE EMAIL I AM SENDING YOU FOR MORE INFORMATION REGARDING THESE MEASUREMENTS.
SINCE I KNOW THAT THESE ARE NO RETURN ITEMS, I WANT TO MAKE SURE THAT I AM DOING THIS RIGHT. PLEASE CHECK THE EXACT MEASUREMENTS OF THE DOORS AND WINDOWS INDICATED IN THE EMAIL AND CONFIRM THAT MY ABOVE MEASUREMENTS ARE CORRECT.
THAN YOU FOR ALL YOUR HELP AND COOPERATION.

Comments Hi - great website. I am doing a standard 8x7 single car garage door. Outside mount (to the wood frame on my garage). Am attaching the curtains with the hardware that I'm ordering. I was confused by the question asking me to confirm attachment "for curtains only" upon checkout. I chose velcro but i probably won't use it. I just want to be sure that my curtain is bound on all sides as I saw that "raw netting" is not bound at all and that there is no means of attachment for raw netting. I do not want raw netting. I would like the finished curtain please. Do you get many orders from Long Island?
Thank you.

Comments I previously placed an order (order # yhst-66811115135782-8629) and requested the regular strength magnets, but they are not strong enough. After I replace them with the high strength ones, will you accept the regular strength magnets back and credit my charge card? Thanks

Comments HOLD FOR PICK-UP. DO NOT SHIP.
1) These are French doors. The actual unadjusted measurements of the opening are 69 1/2" WIDTH x 76 1/2" HEIGHT. Please see chain of email sent to Kurt.
2) Kurt, if there are any available coupons or discounts available to this order; your order form allows for this.
3) Kurt, We are driving thru Atlanta on our way to our home in Florida. On the night of Thursday the 24th, we will be staying near your office. On Friday, September 25th, we must drive 735 miles from your office to be in Key Largo that evening. Kurt, is there any chance you or someone could meet us between 7:00 and 8:00am on the 25th, so we may get an early start on our journey?

Comments As the holes are not perfectly square -- it would be best if the netting could be oriented where the longer dimension of the square is vertical... the horizontal dimension of the panels is the 12' dimension
If you have any questions about what I mean, call me on my cell 416 300 0656
Thanks
David

Comments Yes.
Panel 1 (inside facing the observer) ends on the LHS in a door opening to take the strong magnet closures.
Panel 2 starts on the RHS (inside facing the observer) with the other side of the door opening to take the strong magnet closures. Then working from the RHS (inside facing the observer) measure 3'6" to the start of a reinforcement panel that is 1 ft wide.
The reinforcement panel is to protect the screen where it will be going around a square pillar in the corner of the L shaped verandah. If you don't do reinforcement panels, then ignore it and we will hold the screen away from the pillar with a rigging cable or something similar.
