**Comments**             I am installing my curtain on an 8 x 11 porch. The door (entrance from the porch steps) will be in the 11' section. I am considering using a drapery style overlap in the middle of the section of this entrance area. Do you have any suggestions or comments about this application? Do you know of other customers that have used this idea? I have allowed for a one foot overlap.  
Thank you,  
Denise Petersen

**Comments**              These panels are going into a gazebo which is 10'x10'. I envision that I will be able to start at the center of wall A ( an opening) then go to the corner and along the entire wall B and stop midway on wall C (another opening across from the opening on wall A) the 2nd panel will go from mid wall C to the corner and along the entire wall D to midway on wall A.  
this would require both vertical ends to have the stitching on both panels.  
Thanks, you can reach me at 916.912.2489 if you have questions.

**Comments**                Please do not process the order until we talk or email. This is an inside hang on a patio with a span of 21'6" and a height of exactly 86". There's a concrete floor, brick sides, and a vinyl soffit on the top. I would like the bottom bound for neatness, but we need to talk or email before deciding the exact length. I will try to call you later today to discuss.

**Payment**                      American Express

**Comments**                      Is it possible to get the shorter panel (7') cut to 76". The longer panel 13' is ok as is. I understand that is an extra charge to cut an hem the shorter panel to my specifications.  
Questions, my work phone is 706 548 1588, ext 2331.  
Thanks

**Comments**              Thank you again for all your help on the phone. I decided to go with the black as opposed to the no-see-um because durability is not high on my list of necessities and clarity is by far and away the driving factor. However, I do appreciate all your advice and I look forward to sending you a picture of the finished product!  
-Nicholas

**Comments**                I hope we are ordering what we really need. I was very confused on the order form where it asked about span 1, span 2 and span 3. I just need to replace the front of my gazbo that we have. It's current netting is on a sliding track. There is just one section that needs to be replaced. It is only 2 months old. Thanks and if you think I ordered wrong please let me know. Thanks

**Payment**                      Visa

**Comments**                      I plan to try to hang one of the spans using curtain hooks only, so please send me extra curtain hooks and eye screws as your website mentioned. If this does not work I will try to use the velcro (I am asuming the velcro still comes with my order. Please contact me if I have to choose between extra curtain hooks vs velcro).

**Comments**                We received and installed a no-see-um panel on our patio cover. It is a good solution to our sun and golf ball problems. I need to order 2 more panels. The widths are 11 6 and 3 4. The 10 length is fine because we can shorten them as needed. We would want velcro down the sides of the panels. We would also like enough adhesive-backed, hooked-sided velcro to run the entire length of the patio columns; 35 feet or so. One 7 track and hanging hardware. (I have a 7 track and connector leftover from my first order.)  
Please let me know if this is possible and any additional cost. Thank you.

**Comments**                      We would be grateful if you could throw in 20 of the hooks and carriers as well.  
If there is a charge for them, let me know!  
We are loving our mosquito curtain - and telling everyone we know about them  
up here in mosquito infested New England...  
Regards,  
Louise Zornoza

**Comments**                      This is for an L shaped installation, 11.5 x 15.1, we planned a door in the 11 side, hence the 7 foot panel, then the long part that connects to the other side. We assume the panels connect with snaps or something?

**Payment**                      MasterCard

**Comments**                      The 12 foot No See Um netting should NOT have velcro on it. Is this possible?  
It will go on the track that was ordered. All other spans should have velcro.  
Thanks.

**Comments**                      Please send mounting screws with curtain track as one of the orders did not have.  
If you are wondering why so much track has been ordered? I have been installing Privacy curtains on one side of the patio. A work in progress. I will send photos when finished.  
Thank you for your last tip.  
Bruce blaskopf

**Comments**              84ft of binding = 7ft sections x12 strips - can you cut this binding in these 7 ft sections? I will be using these 12 strips of binding to provide vertical support for an inside hang and very windy conditions in Oklahoma. I had previously ordered the netting in May, but haven't been able to order the accessories until now. I do still plan to send you a picture once I finish.

**Comments**             I need the sides finished with the side valance binding. This is an APO address. It will be US mailing rates. However, the 2 day priority may be a waste. Ypu may want to just ship it at regular rates. You will need a customs form attached to the package. I have no good phone number for you to call. Please contact me at the e-mail address if you have any questions.

**Comments**              Hello,  
We would like to use the hook and eyelet method of attaching the curtains rather than velcro. Please include extra hooks and eyes. We are installing the curtain inside a pair of outswing french doors. The opening is 5feet wide. Will a one foot overlap on each side of the door be sufficient?  
Thank you,  
Victor Agran

**Comments**             Both sides of my patio awning are 11'2" long, 9' high by the house x 7'3" high in the front of the patio awning. The front is 20' long x 7'3" high. I ordered a 22' panel and a 23' panel so that I have a opening that overlaps in the middle of the porch. I would like the bottom binded on both sides and front spans so we can have tie downs.  
The bottom will be directly over a cement slab.  
Thank you and let me know if their will be an additional charge. Ed Okerblom

**Comments**                      Kurt asked me to order half as many marine snaps as I need and he would make up the rest. This is really all I need, but if y'all would throw in a few extra strength magnets I'd appreciate it. Photos are coming! We enjoy our curtain so much.  
thank you,  
Jill Curran

**Comments**                      IT IS ME AGAIN.  
WE ARE HAVING TROUBLE WITH THE WIND.  
THE MAGNETS WERE NOT STRONG ENOUGH. WE SET UP ONE  
PANEL WITH A COMBINATION OF HOOKS AND THE SNAPS,IS  
DOING BETTER, SO, WE WANT TO TRY IT ON THE OTHERS PANELS.  
THANKS AGAIN,  
ARTURO&ANGELA.

**Comments**                Hi Kurt - Thanks again for sending the sample packet, and I'm sorry it took me so long to finally get an order placed. This summer just somehow got away from me.  
I expect this to be the first of several orders, so I'll be in touch again.
