Comments I would like to have velcro on both panels, the left panel to have it starting on the left hand corner top and going in 4", starting on the left hand corner top again and going down 15". On the right hand panel I would like it to start on the right hand side top and go in 4", starting again at the right hand side top and go down 15 inches. I will follow this up with a phone call. Thank You, Jim Flick

Comments The height of the space for the net curtain viewing this from inside the space
and moving left to right is 8'-3.5" high on the first corner, 8'-2.5" on the
second corner, 8'-3.5" high on the 3rd corner, and finally 8'-3" on the 4th
corner...
so I averaged them at 8'-3"will that be ok?
Thanks

Comments The bulk material is to permanently staple in the eaves of our log frame home's patio. I have eaves to fill, the longest being 112". I ordered a piece that is 10'x10' and expect to cut it into 3 pieces about 40"x10' and then staple them up in the 3 eave spaces. Am I correct in assuming that I don't need to sew or hem the cut edges? Thanks.

Comments My height measures 91.75 inches (actually it goes from 91.50 to 91.75 inches), but your size selection only allows 92 inches - is that okay?
Also - it is one exposure that is 22 feet wide and I want to make a doorway in the centre. Your guide suggests to add 1 inch for doorways and 2 inches for attaching to walls (a total of 3 inches per panel), but the ordering page says to add 4 inches for panels of my width. Again, is this okay?
Thanks for your help.

Comments I received my order, but was one track short - do you have a quality control that looks at the order to see if it correct and call if it looks odd before shipping?
My width was a total of 22 feet, but I only ordered 3x7 feet tracks for a total of 21 feet. If not, you might consider it - I now have to order another track and pay an additional \$24.44 in shipping and delays installation. I know it is my error, but hjust a thought. Thanks.

Comments I do not need the Velcro attachments. Will this bring the price down (I hope)?
I have to hang these from rafters of the porch upstairs and will attach grommets
along the top myself. What is the size of the binding along the top? Thanks,
Pat Neuhaus

Comments Yes, I need some help deciding 5 or 6 tracks, depending on spices.
Dimensions are 5-11 plus 13-5 for panel 1
and 9-5 plus 5-11 for panel 2.
Also, Matt said you could taper the curtains for irregular height.
Height at the wall is 111"
at the outside corners is 113'
across the front is 112-112.5"
We have to snap to the floor in the front b/c the columns are limestone. (see
email from Monday for photos).
I should be home the rest of the day. THANK YOU!
Any chance of getting the tracks by Saturday?

Comments Per email correspondence, I am very much hoping to receive this order on or before this Friday, August 20. Happy to pay for expedited shipping if available by Thursday.
Order of 2 extra endcaps was purposeful...just wanted back ups in case I screw something up.
Thanks!

Comments I already have the marine snap tool from the first set of snaps I ordered. Can I
get a price break and just get the snaps without the tool? Thanks, if not no big
deal.

Comments Hi
Just for security I will describe my project below. Hope you can go through my order ensuring I have remembered everything.
I have a porch with three openings. I would like to gather the curtain at the two outside edges. Half of panel one will close the left side plus half the middle and the other panel will close the rest. The sides are both 11-1 and the middle 22-6. I have therefore ordered 22-9 including the 5 inch adjustment you recommend. I have ordered 20ft black elastic cord for one cord in each outside corner keeping the curtain tight.
The porch is 9-1 tall - I have added any adjustment as I want the tracking.
I plan to close towards the house wall with magnets - gluing magnets to the wall - will that work? You show a picture using Velcro - will that be better? If so please adjust my order accordingly.
I will use magnets for the close between the two panels. I ordered high power magnets - I could not find any explanation of the difference between those magnets and extra strength magnets??
I suppose screws and other accessories are included?
I look very much forward getting my porch screened in - my wife have mosquito allergy:(
BR
Jan Chen

Comments My opening between Panel 2 and Panel 3 spans the entire 14 feet. I did not see where to order any Velcro to attach these two panels together. Please include the velcro to attach these two panels together. Thanks.

Comments I called yesterday. I'm really excited about getting these up!
I need velcro for the side of my house because I have siding. Please add 20 ft
of velcro to my order. I don't believe I was able to do this on the web site since
I ordered tracking.
While ordering, I noticed a couple additional points of confusion from your
website that I can share later. Right now, I just hope to get this by the end of
next week! Thanks!

Comments We have one short panel of 12 inches wide by 97 tall and could not order this.
How can we get a piece of this size that could be velcroed in over the small
opening and will not need to move on tracks?

Comments This is for 2 sets of French doors. Each set is 69" wide x 78" tall. One set is rarely used for egress, therefore a single panel is ordered. The other two are for the commonly used French door set with overlapping panels sealing approximately where the doorknob is. Please let me know if you see any problems with the order. The number listed above is my mobile.
BTW, we have a single panel for our front porch and we love it

Comments FYI, I plan to use the extra strength ring magnets on masonry for my 3
openings. Your instructions state that these magnets are for wood surfaces. Will
this be a problem?

Comments I would like to add to panel sizes that weren't available on the website. 1-11 wide and 84" tall, 2-2 and 84.5" tall. Both with Velcro attachment. So, if someone could give me a call to confirm price that would be great.
817-201-8588 Thanks

Comments I order from you recently (yhst-66811115135782-11569) and installed my
curtains. I thought I could get away with magnets on my entrances, but they
aren't strong enough, so I need more marine snaps.

Comments Make both panels 30 inches wide x 79 inches tall. I ordered 3 ft because that's the minimum order. Could you throw in a scrap of black netting about 34 inches square? I'll be taking this to a friend in NZ and it's summertime there.

Comments I have three irregular panels.
Panel 1 (tracking attachment, 6'9") is 102" on one side and 87" on the other with a constant angle.
Panel 1 (velcro attachment, 4'2") is 93" on one side and 102" on the other with a constant angle.
Panel 2 (velcro attachment, 6'4") is 102" on one side and 110" on the other. The angle is not constant, photo diagrams to be emailed to you will show the area.
I have photos with measurements of the area to email to you. Please let me know the email address I can send this to.
Cheers,
Jody

Comments Hello Kurt!
Thanks for the email. Here is what I need. I need four 52.5 inches strips that
will be used as tie backs when we get high winds. I am using bungie cords now.
Do I need to cut them once I get the binding or can you do it for me? Please let
me know.
Thanks!
Shanon

Comments Please sew velco strip to right edge of panel 3.
Our deck is sloped a bit and the actual height of the panels should be 1-103",
2-104.5" and 3-104.5". But since panel 1 and 2 join to make a door, I ordered
all panels at 105". Please adjust if you think appropriate.
