5129659408

**Bill to** Same

**E-Mail** wkplace@yahoo.com (emailed)

**Via** FedEx Ground

**Payment** American Express

**Comments** 1. Front Panel has a door: 38 3/4 x 91 1/4 rough opening on left side of screen approx. 4-6 inches from left edge  
2. Right side: Slopes from house wall 114.5" height to 108.5" bottom of eve; 2" fascia drops to 105" and returns to 108.5" then extends to end of slope at 102" height.  
3. Left side same as #2 but has doggie door to right side sloped end...6 inches in from end (12 1/4" x 18 1/4"), approximately 4 inches from ground.  
all bottoms should extend two inched for hog rings/snaps to mount to slap and or bottom of wood.  
It may be best to buy bulk rolls of material and mount/secure on-site?

**Comments**      Send only Track and No-see-um Panels for now  
Send 1 white 5ft panel and 1 Ivory 5ft Panel, so she can test.  
Very Unusual (but Interesting) application design.  
We guarantee our work but DO NOT guarantee effectiveness as she does not  
intend to seal.  
Ask for feedback later as to how her idea worked out. Afterall we don't have a  
monopoly on good ideas.

**Payment**      MasterCard

**Comments**      Yes, 2 special details: more charges may be required...  
1. I want velcro on all 4 sides. (this screen is for an unusual, apartment window opening that is 18" X 62")  
2. And my window height is not a selection option from the pull down menu.  
Window Height: 62 Inches. +2" for velcro at top +2" for Velcro at bottom = 66" total height.  
NOTE: I only added 3 inches to side measurements, may need to add more for velcro.

**Bill to**                    Same

**E-Mail**                   bdore@pepperconstruction.com (emailed)

**Via**                        FedEx Ground

**Payment**                Visa

**Comments**            I decided to put a door on 2 sides. The 2 sides measure 17'1" across so I figured 2- 8'10" panels for each side. the 3rd side is 9'6" so I figured 1-9' 10" panel.  
Because my concrete patio is uneven, the height for the side panels goes from 91"to 92 1/2" so I ordered the side panels 92". Panel 3 goes to a higher joist so that will be 100".

Item	Code	Qty	Unit Price
Heavy Mesh Mosquito Netting Curtains - TRACKING Color = Black Panel 1 HEIGHT = 92-inches Panel 1 WIDTH (feet) = 8-ft(+\$108) Panel 1 WIDTH (inches) = 10-in. **Comments**            I am going with the heavy duty tracking and your instructions said to maintain the same height as what I measured... is this still the case for the heavy duty tracking or should have I reduced the height of the panel? I actually already rounded my measurement down by 1/2", so I think i've done everything like your instructions say, but I thought I had better confirm the height with the heavy duty tracking.

Item	Code	Qty	Unit Price

**Comments**            Measurements are exact.  
I will also need 2 small panels to cover window holes in my patio. 4.5ft X 3ft.  
these two panels will need a a border that i can put snaps in. I do not need track  
or velcro. These two panels are not in my cart. Please bill me the additional  
amount for these two panels. Thanks! Dustin 806-282-2095

**Comments**            last week I placed an order yhst-66811115135782-13278 and installed on the weekend. Looks great and works great. However I guess I misread the magnets I assumed they came in pairs so I need additional ones. Also one magnet was broken. I spoke to Mike and he said you would add the extra to my order. thanks. P.S. If you want a picture to add to your gallery for a gazebo, let me know and I will send.

**Comments**      I have measured from cieling to floor. Should I have decucted for the tracking?  
Panel 1 and 2 are both 22ft. 6 in.  
When is expected delivery? I would prefer it arrive after June 24th as I will be  
away.  
Thanks,  
Marie

**Comments** I had some trouble understanding the width adjustments given the two sections that were slightly different. Panel one attaches to house with inward turn and then is doorway for left side attaching to panel 2 - prior to adjustment is 54 inches. I added 3" for adjustment. Panel 2 attaches to panel 1 turns at corner post and then attaches at center post - not a door way and not an inward turn. The center post is 5.75 inches. The track ends right before the center post and I added 2 inches to length of panel to attach (without inward turn) to center post and another 3" for a total of 5". Size before adjustments was 135.5 inches. Panel 3 attaches at center post again so I added 2 inches , then it turns a corner and goes down the right side attaching to the house with ring magnets. Prior to adjustments it was 135.5 inches. I added a total of 5" for the adjustment. The center post is not a doorway. Hope this explains. I am in Maine until the morning of 6/19. The number here is 207-348-6098. The screens are being shipped to my builder, Dick Brown. His phone number is 207-367-6547.

**Comments**              Please consolidate with  
Order Number: yhst-66811115135782-13740; Date 6/18/2011, Curt said ok to  
split credit card and he would adjust the shipping. No need to send tool for  
snaps. We have that from previous order last month. Curt- Would you please  
send a sample of one heavy roller. We decided to go with the standard roller but  
would like to see the heavy roller for a future project. Thank you.

**Comments** From what we measured our dimensions of a one panel opening porch are: width 92 inches and 110 inches in height. We are at a rental property and must frame in the porch with 1" x 2" wooden beams on all four sides to mount the curtain to. If you believe that due to our measurements that there is a need to increase the size of the mosquito curtain by an inch in either direction I authorize you to do so. However, I ask that you contact me via email with the changes. We do have an additional concern in that this household has two pet cats. We are looking to make a tight seal that would effectively screen in the porch in such a manner to prevent the escape of our pets. If you feel we need more marine snaps please advise and add to the order as well.

Attn: Kurt Jordan  
Re: Order # yhst-66811115135782-13483  
Dear Kurt,  
Please find the curtains I am returning for alterations. I was actually able to work with the 34 ft by 107 inch panel.  
I am returning two panels (23 ft by 114 inches & 9 ft by 114 inches) and the the necessary alterations are as follows:  
\* Panel 1 (currently 23 ft by 114 inches)  
Cut to two panels, as follows:  
1. 187 inches in width, height remains same at 114 inches  
2. 51 inches in width, 94" in height  
\* Panel 2 (currently 9 ft by 114 inches)  
Cut as follows:  
1. 75 inches in width, 95 inches in height  
In addition, I have ordered one more panel @ 108 inches in width and a height of 113 inches.  
I am returning the 6 Fiberglass rods, as we went with the velcro, per your suggestion.  
Please apply the 25% discount to this order, per our discussion last week.  
Thank you so much for your cooperation. We love the product and we have already shared your site with company we had this weekend.  
I can be reached at 716-417-2642, if clarification is required.  
Nanette Gross

**Comments** we are ordering 2 panels for our back sliding doors.  
please email us if this order seems incorrect.  
I have double checked measurements.  
Your web site is wonderful and we look forward to receiving our screens.  
Too many bugs joining us for dinner! thx, Janet

**Comments**

Regarding the order under VELCRO (3 black panels) - please do binding only with no VELCRO as we will be attaching using marine snaps.  
Prefer order to be shipped express (Fedex Ground was only option available above). Please advise via email at denisecrawford@telus.net or phone at 403-560-2944 if any extra charges.

**Comments**            Wow! I love the "family feel" of your operation. The website is easily navigated and fun. My wife and I are retired high school teachers. Our little pop-up camper van (New-West) needs new screens, and per our phone conversation today, your product seems head and shoulders above the rest. It only makes sense to use the very best materials when the sewing labor is so rigorous. Thanks for the smiles your website gave us.

Hug the kids

~~~~~>((( '>

PS: Our next adventure is out to the Canadian rockies, the Pacific, and down into the southwest. Departure: July 6th. ... With your screen material installed.

**Comments** The ends of each panel connect to vinyl siding. Curt said add this note saying "velcro wings".  
Thanks.

708-710-3751

**Bill to**                     Same

**E-Mail**                    jph1221@comcast.net (emailed)

**Via**                        FedEx Ground

**Payment**                Visa

**Comments**             I'm using these as doorway enclosures on a screen house with 2 openings. I  
assume I mount these to the sides of the frames with marine snaps, correct? Or  
would Velcro work better?

**Comments**              We were not sure if the sides (and bottom) of the "raw netting" were finished  
-- i.e. had stitching and holders for the fiberglass rods. Hopefully that is the  
case. If not, please call us. Thanks.

**Comments**

Heights of both panels are 152" (12' 8") - I spoke with Kurt on the phone  
regarding this larger height.  
Thank you.

**Via** FedEx Ground

**Payment** Visa

**Comments** Please send the snaps with 1" or longer screw. I understand these maybe more expensive.  
The shipping \$31.60 seems excessive?  
I would also like to return 180' black webbing order in error. Please advise.  
Thanks, we love your products everything worked perfectly! Thad
