Comments Hi, I forgot to order the ring magnets for the wooden posts and would like some extra snaps as well. The curtains are great so far! I don't mind regular post for these items if it will keep the postage cost down as there is no rush.
Thanks,
Jody

Comments I have to attach the right side of the panel measuring 4-10" to vinyl siding and the left side of the panel measuring 20-9" to vinyl siding. Please incorporate the velcro strips into those curtains and send me the appropriate materials to make the attachment to the vinyl siding.
Thanks,
David Oriol

Comments EXACT measurements:
Panel 1- 185" wide by 90 " tall, Panel 2- 170" wide by 97" tall, panel 3- 185"
wide by 91" tall. I added 3" to each width per instructions.
I plan on snapping the bottom hem of the curtains down flat on my wooden
floor so I'm not sure how much additional length to add to the exact height
which is stated below.
Please call me at 540 622 7458 or email me if these details are confusing.

Comments I purchased some black raw netting and will be sending it back to you to have
(2) small panels made for a separate application. This is why some black snaps
are included in this order.

Comments Looking forward to this project. I've been looking for this type of material for over 5 months and so happy I came across your site. We can now enjoy our outdoor kitchen in the summer and not get eaten alive.

Comments These are replacement panels. Originals were damaged by very heavy winds. I have the original tracking materials, so please don't be surprised by the order of the panels and snaps only. Great product. Still very pleased.

Comments Kurt, I would like the defective panels you told me about in my e-mails...3 20 x 10 and 2 20 x 10 to finish the two apple trees. White if you have it so I can see the difference between white and black. Otherwise, black is fine. I have duck taped the flaws on the pieces you sent me and am doing the edges as you recommended again with duck tape. Seems easy. Trees are starting to blossom out so I am excited to put the netting on as soon as they pollinate. Thank you for your help. I will send pictures when they are on the two trees. If you need to contact me my cell is 417-861-0050 as I am out of town a lot. If the price I put down isn't correct, just contact me and I can change it. Linda

Comments If you could include 8 of the clip ends, that would be fantastic. I didn't think they were the same thing as the tether clips. If they are, then I will just have to purchase those as well. I have heavy winds and I am just trying to keep the darn things from blowing in.

Comments Panel 1 = 26'3" x 92"
This panel needs white velcro for the wall (sticking to white aluminum trim here and I guess black velcro for the edge of the panel (the left edge looking from the outside). The right edge of this panel is a doorway so pockets for magnets. The left edge of panel 2 is the other side of the doorway, so magnet pockets as well. The right side of this panel is black velcro. The tape should be on the "outside" of the edge. Please email me if you have questions.

Comments Just to clarify on the tether clips, I will need 3 total clips and 2 pieces of elastic.
I am not sure if they come as a pair or individually.
Also, with regard to height, we have a single u-shaped curtain with entrance via
French doors on the house side. The height at both ends (attaching to house) is
101". The heights at the corners are 102" and 102.5".

Item	Code	Qty	Unit Price

Comments I spoke with Kurt this morning on the phone, and he indicated that you could go ahead and place marine snaps along just the tops of all curtains. Curtains will be hung over brick arches using snaps, rather than the velcro. Please leave the side snaps off for now so that we can place them to line up with the mortar joints in the bricks. Also, I'd like to come pick up the order, rather than have it shipped. Will call on the morning of 4/26 to set a pick up time. I assume the shipping cost included in my total will be deducted or refunded back to my card? Thanks so much!

Item	Code	Qty	Unit Price

Comments Did not order a top rail. Have a piece left over from a project we ordered from you last year. The rail has already been painted our custom color. Do need the plastic/nylon snaps on the top (narrow) dimension of the netting. Have 5 extra plastic/nylon glides left over from last year's project. This project is for a 2880 exterior door with a brick mold. Opening is 35" X 97". Ordered the netting 1 inch longer so it will hang below the brick threshold. Will secure with snaps on one side, and magnets on the other. Will use your bar magnets in the netting, and my magnets screwed into the brick. Ordered a stiffener for the magnet side, but not the snap side. Please call me on my mobile (214-202-6750) or e-mail me if you feel I should modify the design. You guys were a great help to my wife laurene last year when she ordered the system for our outdoor living area. Thanks Michael Rosen (we moved to Dallas from East Cobb last year)

Comments Re. Magnet holds for the exit opening (looking from the interior of the patio)
should be located on the right side of the 22' curtain & the left side of the 11'
curtain.
This is where the split between the curtains will be to exit the patio and down
steps going to the yard.

Comments Important
As emailed these panels are for a plastic door. I need the left side of one panel
and the right side of the other panel to have velco attached all the way down the
side (including the top). They do not want marine studes in to the plastic.
+
2) ty e backs
+
Please can you only put a very small cost amount on packaging

Comments Panel 1 L side needs a notch cut from the top L corner 5" wide and 4" down.
R side is a magnetic door.
Panel 2 The actual curtaining required from L to R is 15 feet. (+ 5" for accomodation by your recomendations) Height for first 6 ft 2.5 inches is 97 inches. The cutout for built in bench is 7-11.25" in width and requires height of 77 inches. The remaining distance of 11 inches is 97 tall. Not sure where the ajustments should go. We would like to put snaps around the bench to secure it and will need extra space for that. The L side of this panel is also the magnetic door. 3rd panel is straight forward. Thanks!,, We can send pictures if that helps.

Comments Hi, I received my mosquito netting today, I noticed that there is one snap missing on the panel. Could you please ship the snap with this order. Also could you explain how to use splices when connecting track to another track. Thank you very much.

Comments If possible, I'm having a new curtain sent to me on Monday, could you place these (4) end caps in the same box? If not, no biggie. We lost 2 end caps which popped out of the track during some wind, so we need to replace. Thanks in advance. Troy

Comments My height is 99.5" at wall and 100.5" at front edge due to sloped porch floor. I selected 100" as my height as the average. Please advise if it's better to go to 101" to ensure seal at floor along front edge which is longest face.

Comments The net will go under a canvas awning that is tied down. In lieu of Velcro,
 please place grommets along the top with zip ties to secure the net to the frame.
