Comments The irregular heights for both panels:
Panel 1(going left to right) = 8ft ht for the first 9-11 and then 8-2 for the final 7-4 ft.
Panel 2 (going left to right) = 8-2 for the first 7-4 ft, and then 7-8 for the final 11 ft.
I did not know which end to add the extra 5 inches to, is this 21/2 inches to each side? If so,then each of those measurements needs an additional 21/2 inches added.
I talked to Steve about this order, and would be happy to get ideas or to clarify what I have ordered. In fact, I want to make sure of everything before the fabric is cut. Please call me at home 603-323-7755 or mobile (603) 651-6777.
Thanks!!!!

Comments This is for a 3 sided porch area that measures 7' each side and 11' across the front with a post in each corner. Plan is to put opening at one of the posts. I might recess the magnets into the post (reason for the 4 ring magnets). Please check to ensure this will work with what I have ordered.

Comments I have emailed with Matt, and see he is on vacation now. Of course, I've piddled around and not gotten this to you when I should have, and now am eager to get the curtains and hope the order won't wait for Matt to return! If you can access the info I've already sent, great; if not, let me know and I'll resend the photos and other info. Thanks, Lily G

Comments We have a square patio cover 142x142 inside post measurements and are wanting 2 panels per side with a "doorway" on each side. Additionally, we have a vaulted ceiling and are requiring additional raw material to make screens for those areas. Based on this information, does the quantity of products orders "make sense"?

Item	Code	Qty	Unit Price

Comments We already have track....so we have not forgotten to order
Looking outward....I should be able to feel the velcro on the two vertical sides
of the curtain....black on black
Velcro strip for wood poles should be white
Looking outward....height measurements are:
Left 89" approx. Center 88 1/4" Right 86 3/4"
Width allows for appropriate overlap

Comments I have a deck roof for the area I am enclosing. The area that has gaps between the boards is 9ft 6in x 18ft 3in. Would marine snaps attached to the sides keep it attached to the "ceiling"? If so, I would like to order a panel.

Item	Code	Qty	Unit Price
Heavy Mesh Mosquito Netting Curtains - TRACKING Color = Black Panel 1 HEIGHT = 102-inches Panel 1 WIDTH (feet) = 9-ft(+\$119) Panel 1 WIDTH (inches) = 0-in. Panel 2 HEIGHT = 102-inches Panel 2 WIDTH (feet) = 18-ft(+\$218) Panel 2 WIDTH (inches) = 3-in. Panel 3 HEIGHT = 102-inches Panel 3 WIDTH (feet) = 9-ft(+\$119) Panel 3 WIDTH (inches) = 0-in. Panel 4 HEIGHT = Irregular Panel 4 WIDTH (feet) = 0-ft Panel 4 WIDTH (inches) = 0-in.	HEAVY-MOSQUITO-TRACK	1	456.00
Tracking** 7ft straight track = 6-(+\$132) 90 degree curved track = 0 135 degree curved track = 0 Black Snap Carriers = 0 End caps = 3-(+\$3) Splices = 4-(+\$4) White Snap Carriers = 0	Tracking-items	1	139.00
Attachment-items** BLACK Marine snaps = 20-(+\$20) Black binding material = 0 Black elastic cord = 0 Blocked-shaped Magnets = 0 Extra strength magnets = 0 Fiberglass rods = 6-(+\$30) Tether Clips = 0 WHITE Marine snaps = 0 White binding material = 0 White elastic cord = 0	Attachment-Items	1	50.00

Comments I will be installing the single panel outside of a bi-fold door system. I would like the full width to pocket (i.e. fully closed width) to 6 in, if possible. If not, I will simply tie it back.
Thanks!

Comments panel #2 = 3" wide, 67"long represents the stucco strip that is to be installed
with marine snaps on the right of the door entry.
tracking should be in aluminum color according to Gary - not white
panel #1 should be for a 67" opening of door - decucting for track
panel # 3 and 4 should be 62 inches long.
Gary please call or e-mail to make sure everything is correct. also, don't forget
the extra fabric for two front door windows as we discussed. Thanks, Dina

Comments if you can ship the magnets cheaper by mail then please do so. Doesn't seem right to pay double the cost of the item in shipping.
thanks
Sheila Muckenheim

Comments Covering three doorways so need three pieces. Each about 3 feet wide and standard height. Will fold in half lengthwise. If other suggestions, please call my number as these doorways are in an apartment. Have bats and just want to isolate rooms so that any that get in can't get around easily.

Comments Hello Aaron,
1. Around the netting please place a 1-inch border (stitched)
2. Place grommets on the all top/left/bottom/right sides
3. HEIGHT is 122-inches if we can
Ray

Comments Please see my email pic. this is a roof panel. Binding and velcro need to be 3 inches or so above the overhang or drape of screen. This roof panel and 3 inch drape will overlap the top of where the curtains hang and slide underneath on the track. And can the corners be bcut at a 45 degree angle rather than a sewn tailored corner. It will the whole roof panel easier to take down. Did I think of everything? Can you call me to talk about it? I work in a hospital,and can only talk at certain oportunities. Thanks. Me

Comments These panels are all for doorways. actual size on 23x82 panels is 23 1/4 x 82
Also do I need some overlap where the two panels meet? (where you go
through the doorway). I did not add anything for that.
panels are measured pretty exact to the size of the opening.
.just worried about the seal at the track and at the bottom. There's no use
putting these in if they don't keep all the mosquitos out. Just one mosquito can
ruin your night.
I am using magnets on both sides of all panels since the doorways have Iron
security gates the magnets will stick to.

Comments I plan an inside mounting with the two panels meeting at a post, which has a switch box and outlet box mounted on the interior of the post (each of which is 4 1/2" tall and 2 3/4" wide). If possible, please cut out and seam the sides of the two panels to lay around these two protruding objects, and to permit the doorway magnets to lay flat on the post. The top of the first switch box is 56" from the surface to which the rails will be attached, and the top of the outlet box is 24" below the top of the switch box. The bottom of the outlet box is 5" from the bottom of the post. I will send an email with a picture of the situation.

Item	Code	Qty	Unit Price

Comments Matt
*** White Velcro (6ft) ***
Add 6 Marine Snaps
::: INSTRUCTIONS :::
1. Hold the panels up to the frame before applying, and make a few marks on the frame according to where the Velcro should be applied.
*** the bottom of the curtains should just kiss the metal strip below ***
2. Cut the ends of the Velcro in a 'Band-aid' like shape before applying to the frame (round the edges!).
3. After applying the Velcro, reinforce the Velcro on the frame with a staple gun. Then, screw 2-3 Marine Snap studs through the Velcro for another reinforcement
*** apply Marine Snap buttons on top of panels according to where you screwed in the studs! ***
4. Make sure that the panels meet comfortably in the middle, with the 1" side bindings overlapping each other.
5. Apply the Marine Snaps on the sides of the panels, keeping in mind the overlap of the 1" bindings of the panels.
6. For installation of magnets, marine snaps, and fiberglass rods, follow the video instructions on the 'How to Install Elements' portion (top right) of the 'Videos' page of our website!
