919-602-4915

**E-Mail**      yblairdesigns@aol.com (emailed)

**Via**      FedEx Ground

**Payment**      Visa

**Comments**      Is it possible to overnight this to the shipping address above? Please call to confirm.  
Also, can we sew no see um netting with a standard sewing machine or serger?  
We are trying a little of this to see if it will work at our mountain cabin.  
Thanks! Betsy  
PS. We love your website profile of your family and coworkers. We are a dancing family too.

**Comments**              The overall height of my porch is 7'9" but due to the track and because I don't want the curtains dragging on the deck floor I deducted 1" and ordered 7'8" height. If this needs correction, please correct it.  
 Thanks  
 Jim Hanson

**Comments**             It is a three dimension area and the height ranges from 89.5 to 91.5 inches. The Five foot panel is at 89.5. I decided to make both panels 90 inches to have a clean seal. Any other suggestion?

Please take one inch off from each panel, (I added 5 inches to each) also could  
you add 40 ft. of black saw on Velcro & 40 ft. of adhesive- Velcro.  
Thank you for helping me on the phone.

**Comments**      Please sew velcro tape to top edge and along/down one side of each panel. I intend to use these 2 panels as a door for my screened porch. I will use your magnets to secure the inside edge where the 2 panels meet.  
Also, I live 5 miles from your business and would like to save on shipping costs by picking up the product myself. Will I be reimbursed for the \$12.48 shipping charge applied to my credit card? Thank you.

**Comments**      We are ordering panels for our cargo trailer (AKA the stealth camper). Our back double door opening is 63" wide by 67" high, and our side door is 32" wide by 67" high. I ordered three 2'10" panels, two for the back and one for the side. The height should be 69" for all three panels (67" + 2" for velcro), but there was no height option less than 72" so I submitted "irregular" as the height measurement. I included an extra 5" width (total) across the two back door panels, and I am hoping that is sufficient for attachment and overlap for a middle entrance there. I also allowed an extra 2" width for the side door. Please let me know if any of my measurements or attachment items seem inappropriate for this application. -Leanne

**Comments**      The elastic cord I am ordering is necessary to give support for four large screen openings. The wind is constant and they blow in too far to maintain effectiveness at the bottom. So, I will need four sets of the black plastic clips but I don't see those on your list.

**Comments**      Could we have 34 = 10' x 10' cut and if so how much would it cost? if it's  
real pricy to cut it, we'll ut it ourselves.  
We are going to be draping these over our tomato plants - birds are eating all of  
our tomatoes.

**Comments**      We already ordered the curtains and have them up. Instead of putting snaps in all the columns we are using the magnets in some areas instead. The mosquito curtains are great.

**E-Mail**      jack@wavecom.net (emailed)

**Via**      FedEx Ground

**Payment**      MasterCard

**Comments**      The velcro you sent with our previous order did not stick well to the logs of our 100+ year old mountain cabin even after cleaning. We love the screens and they work great but we are just going to snap them up with more snaps. Will send you a picture.

**Comments**             I do not want velcro on the panel. I only need the binding on all 4 sides for a total panel height of 78" and a total panel width of 18". I do not need the tool for attaching the marine snaps. I already have 2. I also do not need a seam ripper.  
Thanks

**Comments**      i'M USING THIS TO SCREEN OFF THE BACK OF A SAMLL TRAILER  
THAT WE KEEP PRODUCE IN AT FARMERS MARKET. THERE IS A  
CABLE ON EACH SIDE THAT PULLS UP THE RAMP /DOOR. CAN YOU  
CUT A SLIT 10" DOWN FROM THE TOP ON EACH SIDE 4" IN FROM  
THE EDGE IN SO THE SCREEN WILL SLIP AROUND THE CABLE?  
THANKS, WADE

703.466.2716**Bill to** Same**E-Mail** jeandre@cox.net (emailed)**Via** FedEx Ground**Payment** Visa**Comments** This will be an "L" shaped inside installation, with the one panel on each leg of the "L". The two panels will meet and seal where the legs of the "L" come together, with fiberglass rods and magnets and elastic cord. The actual dimension is 17' 7 1/2" X 5' 9". I believe the panel widths ordered will be able to join as planned. Can you confirm this please? Thanks--Eric Andre

8286982488**Bill to** Same**E-Mail** 1bcm@morrisbb.net (emailed)**Via** FedEx Ground**Payment** Visa**Comments** we love our curtains, the only glitch we have had was with the marine snaps.  
We had a gust of wind today (not anything too big) and 4 snaps pulled out. Are  
there any tricks I need to know to keep the snaps more secure? thanks!!!  
Susan

**Comments**             I am ordering for a single door and a double door.  
For the single door, the width of exposure plus side mounting surface (for  
snaps) is 40". Based on the faq page I added 2" for a total of 42".  
For the double door, the width of the exposure plus side mounting surface (for  
snaps) is 64". I plan to use magnets and rods to create an opening in the middle.  
For variance and overlap in the middle, I ordered 67" of total width.  
Thank You!

They fit perfectly now. We have inserted the fiberglass rods and magnets and are now moving on to installation. We recently decided to use a combination of snaps and magnets to help attach the "permanent" sides of our panels, since all edges of our doorways are bordered with exposed steel tubing (a very handy coincidence)! We'll send photos of the completed project. We're headed off to the mountains the last week of September and are looking forward to seeing the curtains in action. Thanks! -Leanne & family

**Comments**                Hi Gary, It's Suzanne with the bunny/fruit fly problem. I'm sure this size is plenty big enough for his 48 inch by 36 inch kennel. I found out these are ordinary small black fruit flies so I just want to double check that they (or their larvae) won't get through the holes. Otherwise, I will need the no-see-um netting. Please call if there is a problem or question.  
Thanks,  
Suzanne

**Comments** I am requesting a single panel 12 feet wide by 25 feet long - I assume there will be no seams ( hemming at edges is fine ) , please email me if the panel has seams before filling order. We are using the net for decoration to hang under a ceiling , if you have a matching thread or ties to secure the net please let me know.  
Thanks,  
Mark Bradley
