Comments Please make span 3 10 feet 3 inches. Also I would like all vertical sides bound to allow for the use of the fiberglass rods. If there is an additional charge for the side binding please let me know or add it to my order.
I spoke with you a couple of weeks ago and can't thank you enough for all of your help and your availability!
Mark

Comments Please cut Panel 2: 25 ft. 6 inches. We would like the bottoms cut and bound.
Our ceiling height is 86 inches (this includes the extra 2" you suggest adding).
We know that there is an additional charge for the cutting and binding of the
netting.

Comments I did not see a place to order some of the velcro .. please include some white or
ivory in case I need it. My opening is 94 x 36 with center opening.
I am making this cover for a metal door jam so not sure which attaching
application I will use. I will make all cuts myself. THANKS... This is the only
site I could find the exact type of product I want.
THANK YOUUUUU

Comments Panel 1 - 12 feet X 120" bound all four sides
Panel 2 - 12 feet X 120" bound all four sides
Panel 3 - 10 feet X 120" bound all four sides
Panel 4 - 10 feet X 120" bound all four sides
I was searching for some coupon or promotional code and could not find one.
Since you ask for it under other information, where can they be found?
Shipping the website said UPS air , right?
thanks John Bartel

Comments On the 31 ft. span, I would like velcro binding on the left side in addition to the top.
The right side will be suspended at a corner to connect with the right side of the Span 2--so it could use the stiffening rods and magnets.
Where span 2 and span 3 overlap will be the entrance, so will need magnets.
The left end of span 3 should have velcro binding.
Spans 2 & 3 will need to be custom cut for height as it follows the roofline up (from approximately 8 ft. to 10 feet). Please tell me how to give you exact measurements.
If you can let me know the approximate size and weight of the order, I can decide whether to ask someone to fly it down from Texas or to ask you to ship it to Mexico.

Comments On the website it mentions a price difference between curtain tracking and
velcro attachments, but in the checkout we are not given a choice between
these--we want velcro, not curtain tracking.

Comments Width of curtain should be 137 inches and height of curtain should be 119
inches. I am ordering longer than my actual measurement because I am going
to be installing some flooring on the porch and figure I can shorten later or
leave longer and just drape on floor. It is an inside mount. Is this a good idea?
BTW - I read the letter you sent to Martha - cool! I called to ask a question
and spoke directly to Kurt - I appreciate your time and your gutsy effort in
starting your business. Good luck!

Comments I tried some of this no-see-um mesh as a replacement material for my standard
window screens, and it worked out very well. It's a bit diffiucult to work with
for this application, but a little practice and I've got most of my screens
replaced withoug wrinkles. I'm order some more to finish the remaining screens
in my house. Thanks for a great product.

Comments Since we are unable to span the total distance with one panel. These two
"panels" will be used to span the distance and will connect in the middle.
Please sew velcro on one side of the left panel & one side of the right panel to
form the seal where these two panels will connect? This is the space where we
will exit and enter if neccessary. The sides will always be snapped using the
marine snaps.
Second, Please bind all four sides to give the strength needed for the marine
snaps and track system.
** Exact finished length of each panel is 99" wide x 123" long.
If there are any questions or problems with the items mentioned above please
call me. Can you also email the lead time? Thank you!

Comments We think we measured correctly but here is what we want. We have a 6' x 12" Porch with a center staircase in the middle of the 12' section. The porch has a opening that is 7'6" high. We have ordered two 12' wide by 8' high panels that should hang nicely with velcro from the inside. The two panels need to meet in the middle of the stairs and we will use the magnets here on the sides. We are doing an inside install. The total width of the inside of the porch is 22' 8" so the total width of 24' should give us a little extra. The 8' panel length should also give us 4" extra in height to install the velcro.

Item	Code	Qty	Unit Price

Comments Kurt --
 I'm still making some adjustments to the setup on my houseboat -- I just about
 have it ready for photos.
 We beached next to a gum tree last week to test it out (worst possible case for
 these gnats) -- we had only 6 bugs in the deck area the entire evening !
 THIS WORKS !!!!!
 thanks,
 Doug

Comments We are doing an inside hang, L-shape configuration on tracks for a total length
of 256 inches and a height of 99 inches. We plan to secure it to the floor using
extra magnets. Please check my order to make sure I have included all the
neccessary parts. If you fell there is something I missed, or my measurements
are off (converting inches to feet, adding extra inches just in case, etc...) please
let me know by calling: 512-635-3928. Thank you.
Michelle
I am slightly worried that my total measurements being a length of 21.3 feet,
ordering 22 feet my not be enough. Please let me know.

Comments The curtains will enclose two sides of a rectangular patio. The long side is 21.5
ft, the short side is 11.5 ft. The two spans will meet in the middle of the 21.5 ft
side, forming a floating door. The height across that 21.5 ft section is 8' 1".
Over the course of the 11.5 ft section, the height drops to 7' 11".

Comments The actual height of my ceiling is exactly 96 inches, you suggest to add 1 inch for tracking option which brings it to 97. I think I need the extra 3 inches in the height to help me attach the bottom binding to the vertical posts with marine snaps. The posts are about 4 inches from the track. Would this be a correct calculation?

Comments PLEASE CUT EACH PANEL 140IN. AND BIND THREE SIDES WITH
TAPE ONLY. NO VELCRO.
SINCE I LIVE IN ALPHARETTA WOULD IT BE POSSIBLE FOR ME TO
PICK THESE UP WED? I
KNOW THAT YOU TOLD ME YOUR WIFE DID NOT LIKE PEOPLE
COMING INTO THE YARD BECAUSE OF THE CHILDREN. I WOULD BE
GLAD TO CALL AND LET YOU KNOW THAT I WAS ON MY WAY AND
WAIT IN THE STREET FOR YOU TO BRING THE SCREENS THEM.TO
THE CAR. IF THIS IS NOT POSSIBLE I UNDERSTAND BUT WOULD
LIKE TO KNOW EXACTLY WHEN I CAN EXPECT TO HAVE THEM, i
WILL CALL YOU MONDAY MORNING TO CONFRIM THIS ORDER
AND ANY INFORMATION YOU CAN GIVE ME.
THANK YOU

Comments Kurt -
IMPORTANT - These curtains will go on installed tracking! See Order
YHST-66811115135782-2765. I have a .pdf file that details the horizontal and
vertical measurements, location of the floating door, etc. Please send me your
email address and I will send you this file tomorrow evening. You-all are more
experienced in calculating the measurements, so I believe this file will give you
the correct measurements for these curtains.
Before starting these curtains, approving the charges, etc., please examine this
.pdf file.
Thanks,
Ron Nichols
unixnerd@charter.net

Comments As we are planning to use your curtains throughout our house in India (mosquito is a big issue during a monsoon season) I will be placing an order for additional 20 big french windows/doors for different rooms with different functions, I was wondering if would ge possible to receive a small samples (1fx1f ?) samples of rest of your curtain choices (ivory,black and no-see-um in white&black). It would be very helpfull as I would like to use different ones for different room. Please let me know.
Thank you very much.
Romana

Comments I also need velcro: 2' of white and 2' of black. I need hook and loop of each.
The loop side of each should be sew-on and the hook side of each should be
adhesive-backed. We are thrilled with our curtains, and our making minor
adjustments to make them fit perfectly.

Comments Hi... We are very excited about installing and showing off your product to
everyone, especially our neighbors who could be interested in purchasing your
product! We have searched for a promotional or coupon code and even called
your posted number, but have not heard back yet. We didn't want to wait
another minute to place the order, so, If we are eligible for a discount on our
order, please apply it as a discount would be greatly appreciated. Thanks.
Kate and Barry

Comments The widths are my exact openings. Should I add a few inches to allow for
gapping. I do not want a loose curtain look, so I was thinking about 3 inches to
each panel. Please respond before completing the order. Thanks. Lori Wenzel

Comments The garage door where the curtain will be hung with Velcro is exactly 16' 1/2".
I only ordered 16 feet of length, so please add an inch or two to make sure I can
use one of the side-binding methods and charge me accordingly. Thank you!
My garage height is exactly 7' (84") and I measure it in several places. I asked
for the bottom to be cut and bound and added 2" for the Velcro attachment and
an additional 1" so it would reach and rest on the garage floor. PLease make
any adjustments you see fit, if you think I should go shorter or longer. Thank
you again!

Comments Kurt - Got your message on our answering machine, thanks! Sorry, very hard
to call during the day. I've thought about it long and hard, and I think this will
work out perfectly for us! Thanks again! ~Diane

Comments On the 15' section, Kirt said to tell you to make it 15' 4" and to give me 10 extra
Marine Snaps.
On the 5' section, make it 3' 10", it is 96 1/4 floor to ceiling and you are
binding it-so please cut accordingly.

Comments Hi, thank you for the call the other day. Yes, combing the orders is great idea. I
just placed another 3 orders, could you ship them together ?? I have many more
orders to come, could I get any discount on them ??
thank you

Comments Hi
 Please configure the 2 mosquito net curtains for curtain tracking, not Velcro.
 We'll get the tracking in Australia.
 Thank you

Comments i have ordered before #yhst11115135782-3688. am thinking of inserting a 1/2"
pipe into bottom hem as it covers the front of my carport with no cross support.
i could use the fiberglass rod. can you leave end of bottom binding open? call
me before you fill order. susan

Comments Good Morning Kurt Jordan and your Great Team! We are so pleased with your service and the products you provide. We are still making minor improvements to the installation of the screening but have already enjoyed countless days on our balcony bug-free! Thank you so very much for your splendid product and much appreciated ethical work practices....we are so very pleased to show off your product to neighbors and friends and hope that many sales will follow for you. Best Regards...Barry and Kate Doyle

Comments Happy thanksgiving! We used these at my sister's house and they looked great-
 I am looking forward to the finished product at my house.
 thanks

Comments This project is a lanai in Florida with three open areas to be covered. Each opening is separated by very large concrete support posts (3'x3'x106") that will be used to attach ends on the side panels and one end each on the two front facing panels. Each of the side panels' other ends will attach to the house, and the larger front area will consist of two panels that will meet in the middle to form a virtual door, or be pulled back and swaged in a "V". All of the attached sides will be secured using magnets since the material is concrete; therefore bindings are also required on all sides. The exact dimensions of the openings are as follows:
Side 1:
105" tall x 91"wide
Side 2:
105"tall x 72" wide
Front Opening:
106"tall x 160" wide.
(two equal size panels 80" wide each)
Please feel welcome to contact me at your convenience if given these dimensions, the order I have submitted does not seem accurate.
Thank you,
Sean Brushett

Comments I will be using these curtains as sheers on the inside of the house. I want the
curtains to be gathered slightly hang nicely when they are closed. I've added an
extra 2 ft. to each wall span to achieve this effect. Please let me know if you
think I should increase the width of the spans/panels to achieve a more gathered
look when the curtains are closed. Thx.

Comments Your product list lists the no see um as black - but offers white as an option. I
 do want both black and white - but if I am wrong about white being available
 please just cancel that quantity - don;t substitute it for black to give me extra
 black. Many thanks

Comments I have included the recommended additional inches as described.
Total panel sizes:
Panel 1 = 114" W x 97" T
Panel 2 = 191" W x 97" T
Tracking on top, Marine Snaps and Fiberglass rods on the side.
For the track, the straight span is just short of 26' so do I need to splice the track
pieces together? Is it easy to cut the track to fit? If I need additional hardware,
pleasee contact me at 864.631.4570.
Thank you,
Dan Griffin

Comments FedEX sounds like it will be expensive for a few snaps - maybe usps would be better?
PS. I will send you photos of my install in my pergola - last August during install my PC HD crashed so I have recovered some photos and will re-shoot others.
Cheers. Richard

Comments 1) I need to use the wider heavy duty velcro due to very windy conditions. Do
you carry that or do I need to purchase it and ship it to you?
2) I would also like to have velcro sewn on both sides.
I realize there will likely be an extra charge for this which is fine.
Please call me to discuss if you need further clarification or if I need to send
the special velcro to you and/or authorize any additional charges. Thank you
very much.

Comments This no-see-um curtain is for a garage door opening. I would like to use a
Kirsh travis rod (expandable) mounted on the inside of the garage just above the
garage door. When the garage door is open there is room to pull the curtain
across the opening (one way pull). I would like to put fiber glass rod and marine
snaps on each side of the door opening and/or magnets. Should this set-up
work? Please let me know.
(318) 524-3028-Home
(954) 235-7855-Cell
Thank you.
Sincerely,
Paul Hollenbach
P.S. If this works I would like to do the same on my back porch (covered)
Patio. I hvae (2) other Travis rods I could use there.

Comments Speaker material
Steve, I misquoted the price. It's a hair cheaper.
\$12/yd x 220yds = \$2,640 + \$100 shipping.
Thanks for the order, Kurt

Comments I understand that I am not ordering hemmed and finished curtains, but rather
 raw, unfinished no-see-um netting to sew with. Please contact me if I have
 ordered incorrectly! Thank you! Nisa

Comments I'm assuming that the edges of each panel will have binding. Please let me
know if I need to specify this and adjust my order.
Thanks.

Comments I'm having a party inside of my garage and looking to attach this netting to the
bottom of the garage door and then opening the garage door. Sounds simple;
however, I have a newly built house with a 2 x car garage and not sure of the
measurments...but I think I'll be good with this netting.
V/R
Alonzo D. Baker
