Comments Hello Kim,
You may want to use either a magnet doorway with fiberglass rods or have us stitch Velcro on one side of the 2ft panel. It will be far easier for you to stitch matching Velcro onto the existing panel than to try to stitch the bindings together. It is nearly impossible to get the two panels to match lengths by stitching. We will make your add-on curtain at no charge. Here's what you do. Order the 7ft track online (and any other misc hardware you may need) and in the comments box at checkout copy paste the following:
Kurt agreed to include a 2-0 x 94" heavy black curtain configured for tracking with hook Velcro on the RIGHT/LEFT? side as I am standing on the interior of my porch looking out into the yard. Also, please send me 8ft of sew-on loop Velcro.
(THE VELCRO IS NEEDED ON THE RIGHT SIDE)
(THE WIDTH OF PANEL 30" TO BE SAFE)
Thanks
Kim

Comments I ordered a panel 81" wide x 72" high, but only need one 81" wide x 52" high. I
 would prefer a panel only 52" high if this is not too much trouble.
 Thank you, Kirk

Comments When I clicked on my shipping choices, the only option was Fedex. I don't like dealing with FedEx because they have tried to make me pay additional fees before they hand over the goods because it has to cross the border. Could you tell me if I have to pay anything extra, and if so, what will I have to pay. Please let me know the full cost associated with this order. If the extra costs are too high, I do not want to order from you.

Comments Panel 1, left side is 2" shorter than right side,
Panel 2, left side is 2" longer than right side. The longest dimension for both panels is ordred. Your web site seems to indicate that a 2" difference is okay. If not, please advise and I'll provide details on the panel patterns. The screening to be installed on porch with 3 open sides and 6 columns. Porch is approx. 14' wide by 33' long with approx. 2" slope on 14' width dimension (house side shorter than open side).

Comments Porch with only one side exposed. Home is stucco. Width Opening is 18' 7" plus 3" per panel, plus 1" per 10' = 19' 2"
Opening Height- 9' 2 1/4" so I rounded up to 111"
3 sections of 7' straight tracks
2 Tracking end caps
4 Fiberglass rods (2 rods per side)
1 package of 10 Black Marine snaps.
Opening has a header..planing on placing track on bottom of header will there be too big a gap there between track and binding? I think that it would be nicer and easier than an inside or outside hang. Any suggestions, comments, or any NOOOOO DON'T DO THAT!
Thanks! I truly enjoyed your site and the videos.
-Cricket

Comments Panel 1 Velcro will cover 3 sides of a Pergola the following are the widths of the 3 sides 9', 10'1", 8'10" for a total of 27'11" I then added the 6" recommended and rounded to 28' 6" if this needs adjustment let me know.
Thank you.

Comments Hi, Could you please double-stitch velcro around the outside of each panel? I
am attaching to vinyl siding.
Thanks, any questions please call me or email me.
Keith

Comments I have added the "adjustments as requested.
 First panel, 12'10"x10" will be not a side, but a top using marine snaps on all 4 sides.
 I will be constructing the support structure after receipt of curtains.

Comments I think I read all of the instructions correctly, but please let me know if something appears amiss in my order. I'm covering a 7' x 16' garage door opening, with two panels (so I can have a 6' "doorway" and a 10' hanging wall). Low wind conditions.

Item	Code	Qty	Unit Price

Comments I would really like to receive my order by Saturday and am happy to pay more to make that happen.
 Also, I have sent an email twice about the other part of my porch that I'd like to secure - it includes a roof - but am not getting a response.

Comments I plan to use this set-up[only for a few months. Then I plan to reuse the longer panel to make an overhead screen for a 94" x 132" overhead screen for an enclosed courtyard. What will I need to make this conversion? how should the fabric be attached to the walls in that case? Please don't prepare or ship my order until I know how to move forward on this matter. Thanks.

Comments I just need more Marine Snaps. I tried the high-powered magnets for a seal along the house however they really don't hold very well. And I have to replace 2 of my Marine Snaps I originally installed because they failed.
Thanks!

Comments We have vinyl siding and need VELCRO for side attachments on BOTH SIDES
for panels 1,2,and 5
on panel 3 (33" wide):velcro LEFTside only
panel 4 (33" wide):velcro RIGHT side only
(This is to allow for a doorway entrance between these two panels).
PLEASE ADVISE ADDITIONAL CHARGE FOR THIS, thank you!

Comments Our previous order 66811115135782-10542. There are 12 sides on 6 panels that needed to have the black snap carriers (female side), we have the snap carriers. Please include with this order and how do we attache these to the curtain? What is the best way to hang the tiebacks? if we need items to install the tiebacks add to this order please, we have 13 curtains to tie back. So far we are loving this product and would be interested in selling in Birmingham and surrounding area. Charles Gagliano

Comments The left and right sides of my patio have a brick knee wall about 4 ft high. The panels will be mounted inside the brick knee walls but I wondered about the rubbing against the masonry.

Comments 1 panel, 36'9" wide plus 6" adjustments, and 114" tall plus 2" adjustments for velcro installation. We are shipping this for use in our home in Panama, so cannot order the fiberglass rods (they are too long to fit in the shipment), but will find rods there, so please plan on making the side bindings so they will accept stiffer rods. Please call if you have any questions or if it looks like I have not figured the adjustments correctly. The installation is 1 panel wrapped in a u-configuration, inside wrap, velcro attachment.

Comments I appreciate your willingness to provide the cable via our conversation.
Unfortunately I failed to mention the color being white and that I would need 2
-10' lengths. So therefore my o5466rder.

Comments 2 panels 4 1/2 ft x 8 ft 2 inches.....to hang in a large doorway for a retail shop. I
am allowing a little extra so there is some extra netting so it hangs like a
curtain..it will have people walking through the opening all day.

Comments panel 1 is actually 87.5" tall
panels 2 and 3 are 87" high
I added 4 inches to the length of all panels as per your website for
fastening/overlap
In case I erred at some point in the ordering, everything should be in white
when that is an option.

Comments Kurt,
My wife decided to do the work herself since the distance to the ground is varied and hard to quote. She decided to hang them and then just cut around the bottom to size.
Please charge me for and include 6 fiberglass rods, 20 feet of tracking, hardware for 20 feet of tracking (and four end caps), magnets for two seperate openings, and marine snaps and any needed hardware for 68 feet of linear distance.
Also do you use any mesh tape when you sew the edges? If so we could use 152 feet of that.
Thank you!

Comments The beginning (of panel 1) and end (of panel 3) require a small notch at the bottom to accommodate brick detailing on the house. Notch is 2" horizontal/in x 9" vertical/down at the bottom edge of the panels. I'll call to confirm-thanks

Comments All this is for my previous order, which I just received.
In addition to the white marine snaps on this order, can I get 7 straight track screws? I can't see how to order just the screws. Go ahead and charge my credit card for the screws, or email me the cost and I'll send you the money. Thanks.

Comments Please attach velcro material to the left edge of panel one.
Please attach velcro to the right edge of panel two.
We will be attaching the velcro edges to vinyl siding and the opposite edges
will be made into the door leading down the steps of the porch.

Comments Stupid question but i measured on opening and then right angle to other opening
 for width. I take it it will come out the same with the 90 degree track.
